In this one-of-a-kind presentation, spiritual teacher and whistleblower Mark Passio will talk about the "New" Age Movement as a Religion that has been created to deliberately prevent Humanity from developing a deep understanding of Natural Law, the information that they most need to understand in order to break out of the Human Condition of Slavery and become truly Free. Mark will expose many subtle "New" Age Deceptions which have been disguised as spiritual teachings, and then offer corrections which convey deeper spiritual truths to balance each deception. If you have been lured into the feel-good "spirituality" of the "New" Age Movement, this is a critically important presentation that you need to see to understand how you are being deceived.
